

# Got Leaves?

Fall has arrived! Already the leaves have started to change colors and to fall. Leaf removal is a difficult and time-consuming job for homeowners and we would like to relieve that responsibility. CLIP Lawn Care's Leaf Cleanup service includes blowing and/or raking and collecting the leaves on your property. Typically, we either bag the leaves or leave them for the city to pick up (where available). Another option is for us to haul the leaves away for you. All options are described below. Please call or email us with any questions you may have.

If interested, please **choose** one of following options and **return** to:

## CLIP Lawn Care

218 W. Patrick Street  
Frederick, MD 21701

The rate for leaf clean up is \$45 per person per hour plus \$1.00 per recycle bag (i.e. if two team members perform the service, it would cost \$90 per hour).

For regular lawn mowing customers, we will complete leaf removal at the same time as your mowing service when possible.

- 
- Clean every week\*                       Clean every other week\*  
 Clean every four weeks\*                 Clean twice: middle and end of season\*  
 Clean once at the end of the season\*

Note:

\* If your property has too many leaves when we arrive to mow, the crew will use their judgment to decide whether or not they can cut the lawn. Therefore, it is important to keep up with leaf removal.

Do you need the leaves to be hauled away? (Available only where there is no local leaf pick-up)

Yes  No

If you need the leaves to be taken off site an estimator will come to your property to provide an estimate for a flat rate dump fee.
